

HOW CAN RPA IMPROVE YOUR BUSINESS?

In many use cases, RPA automate or semi-automate many rule-based or manual tasks that are low value-added including report, account payable, capture customer's feedback and sales quotation preparation.

10X FASTER THAN HUMAN

RPA automate processes which are 10x faster than manual tasks.

SEAMLESS WORK WITHOUT HUMAN ERROR

RPA bot can work 365/24/7 without quality variation, human error and information loss.

PROCESS MONITORING

RPA can record every BOT's process, which is necessary for monitoring and compliance purposes

25-50% COST REDUCTION

1 RPA BOT costs 1/5~1/3 of employee, which mean enterprise can save 25-50% cost

EMPOWER EMPLOYEE

When the low value-added tasks are passed to RPA, employee can focus to high value-added tasks including planning, analysis and communication with customers.
